Supplier Election (Tax at the Rack)

Suppliers may elect to collect North Carolina's excise tax on imported fuel from out-of-state terminals. Once this election is made, suppliers must collect excise taxes on all reportable petroleum products removed from out-of-state terminals which reflect North Carolina as the destination state on the shipping documents.

31. Indicate the type of supplier license you are requesting.
- Elective Supplier** is required to be licensed in North Carolina and elects to collect motor fuel excise tax on fuel imported from out-of-state terminals that have North Carolina as its destination.
 - Permissive Supplier** is an out-of-state supplier that is not required to be licensed in North Carolina but elects to be licensed and collect motor fuel excise tax on fuel imported from out-of-state terminals that have North Carolina as its destination.
 - In-State Only Supplier** is required to be licensed in North Carolina but does not elect to collect motor fuel excise tax on fuel imported from out-of-state terminals that have North Carolina as its destination.
